Independence – Masses are being made Slaves And Celebration for Rulers

Dedicating oneself for the people and working towards it has more gravity than sacrificing one's own life for freedom. Comprehending this and knowing for whom the Independent day celebrations are for is vital.

There is no independence for people unless people rule themselves. Masses are divided and manipulated in the name of ethnicity, caste, religion, colour or gender, in order to set them to fight with each other. Oppressors and exploiters can then easily take the powers in their hands and the rulers claim this as independence.

Masses have no freedom to struggle against their oppression. Even attempting to articulate or thinking of this under the present context would award them with death. The Government does its unofficial and illegal executions in the form of making persons missing. Numerous persons were missing and still the disappearances without any trace are continuing and the list prolongs indefinitely. Who is doing this, the masses or the ruling class?

Today there is no any form of freedom in Sri Lanka. Masses have no option to have their own politics. They have no right to express their views. They have no freedom to organise and struggle for their rights. What is the meaning of independence of the people who cannot afford for sufficient food, clothing and no shelter for living? In a situation where freedom of speech and expression amount to fatal offences, the talk of democracy and freedom attribute to what and for whom? Is it to roll down in the so-called sewer of parliamentary democracy?

It is freedom for exploiters of the people. It is a freedom to make people missing and consequently kill them. Now tell, the freedom is for whom?

On the other hand, do not trust the lies of narrow nationalism that Sinhalese masses enjoy all forms of freedom with a fluorescent life. Oppressing the masses, dividing them and with the same tongue explaining about freedom is a form of hoodwinked treachery.

The Government oppressed the people in the past by the name of Tiger insurgency. Now, in order to subjugate and rule the people, threatening them by saying falsely that, re-emerging of tigers is imminent. It continues to brand everything with tiger stamp and trying to suppress the inspiration of the people. On the other hand active raisers of freedom voice are being made missing.

In each and every sphere the Army is intruding. A murderous group is operating with the sham banner of intelligent service. Family dictatorship is gradually transforming into military dictatorship. Behind all these, a mafia group is blossoming. To facilitate foreign exploitation and plundering, communal feelings are being encouraged. In the budget, 50 percent is allocated for non-productive transactions and that is robbed legally. This is the glory of Independence.

After the war, the freedom of the people in the North and East is that of confinement within the army camp. The army intervention is there in all activities. It is to the extent that even to answer the call of nature, permission required. While repeatedly telling that the government liberated them from the crutches of the LTTE, It continues the rule through military and paramilitary. The rulers oppress the people and fattening themselves and ridiculously define it as independence.

People who lost their source of livelihood due to the war have no house to live, no job to do and no resources to cultivate. The situation forces the female for prostitution. 100,000 widows are in the North and East. In the North alone 4,300 children are in children orphan centres and relatives look after another 9678 children. The Government sources themselves provides these details. In the North 14,000 children lost their parents. In the name of freedom, who killed the bread winners of the population and made this society of widows and orphan children.

Turn back and look at your society. The former female fighters of the LTTE not only facing the problems of the male dominant society, in addition they experience the horrible negligence and ill treatment from their very own society.

The horrible thing is that the rulers proclaimed this as peace but people are killed and the killings surpass the war killings. The Sinhalese and Muslims who challenge this too are missing in the independent Sri Lanka. This is the type of "freedom" after the war. The oppressors who are responsible for this situation articulate the definition of freedom. The wicked behaviour of the persons who get pleasure in others suffering is the driving force for these oppressions. Those wicked ones celebrate independent day against the people.
